Sharing Knowledge and Information

Spirit Guide: Malador

Medium: Jack Webber (1907-1940)

Nationality: Egyptian

Nationality: British/Welsh

Brief Description:

All that is known at the moment is that Malador was Jack's main healing guide. He was a very strong healer who used to take Jack off, when in a semi trance state, to search the local area around the mediums home for healing herbs, which when found would take them home and prepare them.

During healing sessions, healing oils would be produced from the mediums hands, and they would be that thick you think that he had dipped his hand into a tub of Vasaline. Healing became to much of a drain on Jack's strength with the Physical work so the Healing was allowed to lapse.
